01 – AT A GLANCE

A credible brand identity, in two to three weeks.

Professional Logo Design gives small businesses a credible, unique, and memorable brand identity — designed by human experts, delivered in every format they'll ever need, with full ownership of the final design.

It's the fastest way to turn a new business into a recognized brand, and the most affordable way to refresh an outdated one. Use this document as the messaging source-of-truth for all Professional Logo Design content.

TURNAROUND

2 – 3 weeks

TRACK RECORD

75K+ logos

Customers decide who to trust in *seven seconds*.

A logo is the first thing a customer sees. For small businesses competing against larger brands and digital-first competitors, a professional logo isn't a vanity purchase — it's a revenue driver.

KEY MARKET DATA · 2025

7 sec	Time consumers take to form a first impression of a business.	DESIGNRUSH
75%	Of consumers say a logo is the most recognizable brand symbol.	CROWDSPRING
80%	Increase in brand recognition from a well-designed logo.	DESIGNRUSH
40%	Boost in brand trust from a professional logo design.	DESIGNRUSH
60%	Of companies say consistent branding drives 10–20% revenue growth.	MARKETING LTB
81%	Of consumers need to trust a brand before they buy from it.	WISERNOTIFY
87%	Of consumers will pay more for products from a brand they trust.	WISERNOTIFY
90%	Of a customer's first impression is driven by logo color.	HUDDLE CREATIVE
70%+	Of small businesses invest in professional logo design.	CAPITAL ONE
20%	Of all logos created in 2025 are AI-generated — underscoring the value of a human-designed, trademark-able mark.	INDUSTRY

Human-designed, fully owned, delivered in every format.

Professional Logo Design is delivered through a dedicated Logo Design Coordinator. Customers don't navigate AI templates, they don't compromise on originality, and they don't give up design rights — they get a custom logo built around their business.

WHO IT'S FOR

- **New SMBs** establishing their brand for the first time.
- **Established businesses** whose logos are 7–10+ years old and due for a refresh.
- **Trust-heavy verticals** — contractors, plumbers, electricians, restaurants, legal, healthcare.
- **Ecommerce businesses** needing a logo that works across packaging, print, and digital.
- **Anyone who used a free tool** and realized they don't own the design.

WHY IT WINS

- **Human designers, not AI.** By 2025, 20% of logos are AI-generated — human-designed marks are more differentiated, not less.
- **Full ownership.** The customer owns the final logo outright and can trademark it. Free tools rarely transfer full rights.
- **11 file formats.** Ready for web, print, merchandise, social, and signage — no back-and-forth requesting sizes.
- **10+ years, 75,000+ logos.** The design team has seen every industry and every brief.
- **Three price points.** Plans that work for brand-new SMBs through established businesses wanting a full stationery refresh.

SELECTED WORK

What every plan delivers.

Seven features, present in every tier. The differences between plans live in concept count and stationery — not in service quality.

Dedicated Logo Design Coordinator	A single point of contact who reaches out within 2 business days of purchase, captures the creative brief, and manages the project end-to-end.
Up to 10 custom design concepts	Human-designed concepts tailored to the business, its industry, and its audience — not AI-generated templates.
Up to 3 rounds of revisions	Each revision returns updated concepts within 3 business days, so the final logo reflects the customer's vision.
11 final file formats	AI, EPS, PDF, JPG, PNG, GIF, ICO and more — 6 color and 5 black-and-white — ready for web, print, merchandise, and social.
Full ownership of rights	Customers own their final logo outright — trademark-able, royalty-free, and unique to their business.
Quick turnaround	Initial concepts delivered in as little as 3–5 business days after the creative brief is complete.
Expert in-house designers	A team with 10+ years of experience and 75,000+ logos delivered across every major industry vertical.

Plans, features, and pricing are provided for illustrative purposes only and may vary based on your go-to-market strategy. Availability of certain features and services may differ by region.

From brief to final files.

Five clearly-defined steps. End-to-end timeline of two to three weeks for most projects.

Step
01
Day
0

Purchase & welcome

Customer purchases a plan and receives a welcome email confirming the order and introducing the next step.

Step
02
≤ 2
days

Coordinator outreach

A dedicated Logo Design Coordinator calls and emails the customer to collect the creative brief — business goals, style preferences, fonts, colors, and sample logos.

Step
03
3-5
days

Initial concepts

In-house designers draft up to 10 custom concepts (depending on the plan) based on the brief and deliver them via email for review.

Step
04
up
to 3
rounds

Feedback & revisions

The customer reviews concepts and provides feedback. Each round of revisions returns updated concepts within 3 business days.

Step
05
≤ 3
days

Final files delivered

Once the final concept is approved, the customer receives all 11 file formats (6 color, 5 B&W). Full rights transfer — the logo is theirs.

2 – 3

WEEKS

Most projects complete in under three weeks. The Logo Design Coordinator manages the timeline end-to-end.

Three tiers, one promise.

All plans include the Logo Design Coordinator, three rounds of revisions, the full 11-format file package, and complete ownership of the final design.

WHAT'S INCLUDED	BRONZE	SILVER · MOST POPULAR	GOLD
Logo Design Coordinator	✓	✓	✓
Custom design concepts	4	6	10
Rounds of revisions	3	3	3
11 final file formats	✓	✓	✓
Full ownership of design	✓	✓	✓
Stationery design (card, letterhead, envelope)	—	✓	✓
1,000 printed business cards	—	—	✓
Branded email signature	—	—	✓
Premium support	—	—	✓

Note. Plans, features, and pricing are provided for illustrative purposes only and may vary based on your go-to-market strategy. Availability of certain features and services may differ by region.

Discovery, by vertical.

Use these questions on discovery calls to uncover fit and surface the value of Professional Logo Design.

DISCOVERY QUESTIONS

- Walk me through how customers find out about your business today — where do they see you first?
- When did you last update your logo? Most businesses rebrand every 7–10 years.
- If I searched for your business online right now, would the logo I see match the signage on your storefront, your business cards, and your social media?
- What's the one thing a customer should feel or remember when they see your brand for the first time?
- Have you ever had a customer confuse your business with a competitor?
- Do you plan to print anything in the next year — vehicle wraps, uniforms, packaging, banners?
- If you were starting fresh, would you want a logo you fully own and can trademark?

HIGHEST-FIT VERTICALS

- **Trades & contractors** — customers choose the company that looks most credible when a pipe bursts or a roof leaks.
- **Restaurants & hospitality** — first impressions happen online before the door; a professional logo drives foot traffic.
- **Professional services** (legal, accounting, consulting) — the logo carries the weight of authority and expertise.
- **Healthcare & wellness** — patients decide who to trust based on how established a practice appears.
- **Ecommerce** — a strong logo differentiates a storefront from Amazon-scale competitors.

COMPETITIVE SNAPSHOT

- **vs. Free logo makers.** Human-designed originality, full rights transfer, 11 formats.
- **vs. Marketplaces.** Dedicated coordinator and 75K+ in-house deliveries.
- **vs. AI generators.** More differentiated and easier to trademark.

The questions you'll hear most.

OBJECTION HANDLING

"It's too expensive."

Plans start at entry-level pricing. A logo is a one-time investment that represents the business for the next 7–10 years — pennies a day. 87% of consumers pay more for brands they trust, so the logo often pays for itself in conversion.

"My customers already know me."

Your existing customers do — new customers don't. 75% of consumers identify a logo as the most recognizable brand symbol. A weak logo means new prospects choose whoever looks more established.

"I can make one myself for free."

Free tools typically don't transfer full rights, which means no trademark — and a similar business could end up with the same design. Limited formats also limit where the logo can live.

"I already have a logo."

How long have you had it? Average lifespan is about 10 years. The coordinator can review whether a refresh or new design would be a better fit.

"A family member can do it."

Do they have design experience? Will you own full rights with a rights-transfer letter? Will they deliver vector formats that scale to signage and wraps? Most favors miss these.

"I'm not interested right now."

Understood. The average SMB loses customers because they're harder to remember, not because they're worse. When you're ready, the coordinator can have initial concepts in your hands within a week.

FREQUENTLY ASKED QUESTIONS

"How many revisions are included?"

Up to 3 rounds in every plan. Additional revisions are available for an extra fee.

"How long does it take?"

Concepts arrive 3–5 business days after the brief is complete. Each revision round takes up to 3 business days. Final files are delivered within 3 business days of approval.

"What file formats do I receive?"

All plans include 11 file formats: AI, EPS, PDF, JPG, PNG, GIF, and ICO. Six are color, five are black-and-white.

"Who owns the copyright?"

The customer does. All rights to the final design transfer on approval, including a rights-transfer letter.

"What if I don't like any concepts?"

Every plan includes 3 rounds of revisions. In the rare event none of the directions are right, the coordinator will re-brief the designers.

"Can I trademark the logo?"

Yes. Full rights transfer means you can register the logo as a trademark in your jurisdiction.

The ideal entry-level product.

Professional Logo Design is the front door of the portfolio — easy yes for customers, natural upsell path for service providers.

- **Opens new accounts.** A \$200–\$500 logo is an easy yes for an SMB, and once they're a customer, the upsell to domain, hosting, website, and email is natural.
- **Strengthens retention.** Customers who invest in branding through their service provider are more likely to consolidate other digital services with the same partner.
- **Drives ARPU expansion.** Logo customers convert to Website Design at meaningfully higher rates than cold prospects.
- **White-label ready.** Service providers brand the product in their own colors, set their own pricing, and own the customer relationship end-to-end.
