80%

recognition lift from a strong logo

WHY A PROFESSIONAL LOGO MATTERS

Credibility

Look established the moment a customer sees you.

Recognition

Stand out from competitors and stay memorable.

Versatility

11 formats — ready for web, print, signage, social.

Ownership

You own your logo outright. Trademark it.

HOW IT WORKS

From brief to final files in 2–3 weeks

01

Creative brief

A dedicated Logo Design Coordinator contacts the customer within 2 business days to capture the creative brief — business goals, style preferences, colors, and reference logos.

02

Custom concepts

In-house designers deliver up to 10 original concepts in 3–5 business days. Up to 3 rounds of revisions included to get the final design exactly right.

03

Final delivery

Final files arrive within 3 business days of concept approval — 11 formats (AI, EPS, PDF, JPG, PNG, GIF, ICO), full rights transferred, ready for any application.

PLANS & PRICING

Three tiers for every budget

SALES PLAYBOOK

How to sell Professional Logo Design

IDEAL CUSTOMER PROFILE

- ✓ New SMBs establishing a brand for the first time
- ✓ Established businesses with logos older than 7–10 years
- ✓ Trust-heavy verticals: contractors, plumbers, restaurants, legal, healthcare
- ✓ Ecommerce SMBs needing a logo for packaging, print, and digital
- ✓ Any SMB using a free logo tool (they don't own their design)

DISCOVERY QUESTIONS

- 01 Walk me through how customers first discover your business.
- 02 When did you last update your logo? (Average rebrand: 7–10 years.)
- 03 Does your logo match your signage, cards, and social presence?
- 04 What do you want customers to feel when they see your brand?
- 05 Ever had a customer confuse you with a competitor?
- 06 Any print plans coming up — vehicle wraps, uniforms, packaging?
- 07 If starting fresh, would you want a trademark-able logo you fully own?

OBJECTION HANDLING

- | | |
|---|---|
| 66 <i>"It's too expensive."</i> | Plans start at entry-level pricing. Logos last 7–10 years — pennies a day for your strongest brand asset. |
| 66 <i>"My customers already know me."</i> | They do — new ones don't. 75% of consumers identify brands by their logo. Referrals need something visual. |
| 66 <i>"I can make one for free."</i> | Free tools often don't transfer full rights, so you can't trademark — and a similar business could copy it. |
| 66 <i>"I already have a logo."</i> | How old is it? 7–10 year lifespan. The coordinator can recommend refresh vs. redesign. |
| 66 <i>"A family member can do it."</i> | Design experience? Full rights? Vector formats for signage? Most favors miss these. |

COMPETITIVE SNAPSHOT

vs. Free tools	Human-designed, full rights, 11 formats.
vs. Freelancers	Dedicated coordinator, 75K+ logos delivered in-house.
vs. AI logos	Human logos are more differentiated and easier to trademark.
