

BRAND MONITORING

The quickest way for your business customers to stay ahead of their competition.

Hostopia's Brand Monitoring Solution allows customers to monitor mentions of their brand while also seeing what people are saying about their competition. Capture important market insights such as rankings, reviews and ads. Its intuitive news feed and timely email alerts ensure that customers stay updated and understand customer perception and sentiment - all in real time.

POWERFUL FEATURES:

-  **Brand & Competitor Monitoring** - Track online presence across search, social, and reviews, while monitoring competitors' rankings, ads, and promotions.
-  **Instant Alerts & Review Notifications** - Real-time email & in-app notifications for new reviews, mentions, and critical changes to respond fast and stay ahead.
-  **Trend Insights & Performance Tracking** - Spot patterns and uncover opportunities with easy-to-read trend data that turns information into action.
-  **Centralized Online Presence Management** - One powerful dashboard for search, social, reviews, and competitor data.
-  **Plus: Google Business Profile & Meta Integration** - Connect, sync, and publish directly to Google Business Profile and Meta (Facebook & Instagram)
