

REPUTATION & LISTING MANAGEMENT

Help your customers build credibility and trust online across all platforms.

Hostopia's Reputation & Listing Management solution gives businesses everything they need to build and protect their online reputation. From 1-click directory publishing and AI-powered review responses to competitor intelligence and automated workflows, it delivers measurable gains in credibility and visibility — all managed from one centralized platform.

POWERFUL FEATURES:

-  **Review Generation & Management** - Help turn customer feedback into a powerful growth engine — with AI monitoring and crafting timely, on-brand replies across all platforms to build credibility and attract new business without the manual effort.
-  **Competitive Reputation Intelligence** - Benchmark against local competitors, identify gaps, and use AI-driven sentiment analysis to turn feedback into a winning strategy.
-  **Extended Directory Sync** - 1-click publishing to your region's most critical local directories to maximize visibility across search.
-  **AI Social Content & Scheduling** - Empower users to generate, schedule, and publish fresh content across major platforms to keep their brand visible and active — no copywriter required.
-  **Centralized Reputation Control: ManageControl-Manage** everything from one place.
